WORK EXPERIENCE

OneMain Financial

Reporting Analyst – Intermediate | April 2024 to present

- **Designed and executed queries in Power BI (DAX), Power Query (M), and Snowflake (SQL)** to extract, transform, and analyze high-volume operational data, supporting recurring dashboards and completing an average of 15 ad hoc “deep dive” analyses per month for leadership and project teams, enabling early intervention of problems and targeted mitigation strategies for upcoming projects and pilots.
- **Built and maintained a rolling 15-month trend intelligence dataset** of over 200,000 records (average of 14,000 additional per month) of technical support tickets, standardizing issue identification through 43% automation (leveraging a VBA- and Power Query (M)-driven keyword review) and a manual keyword-capture dictionary, enabling consistent tracking of recurring problem drivers and emerging risks.
- **Created and delivered monthly, quarterly, and yearly executive-level trend analyses and impact reviews** to leadership, translating complex ticket data into clear, actionable recommendations that resulted in policy and procedure updates across the company and improved guidance for frontline teams on troubleshooting technology issues and loan processing pain points.

Technical Support Specialist – Intermediate | May 2022 to April 2024

- **Delivered tiered technical support for internal users** by diagnosing and resolving an average of 360 calls per month within both proprietary loan servicing software and company-issued/approved personal devices, including troubleshooting access, configuration, and performance-related issues.
- **Consistently maintained 80-100% quality assurance scores** by meeting or exceeding incident documentation, resolution accuracy, and compliance standards.
- **Improved service-level performance by achieving efficient handle times**, outperforming the team average by 30% through leveraging efficient root-cause analysis and customer-focused communication.

EDUCATION

- **Master of Arts in Communication** | University of Southern Indiana
- **Bachelor of Arts in Communication** | University of Minnesota Duluth

SKILLS

- **Data Analysis:** Power BI (DAX), Power Query (M), Excel relational data models, Snowflake SQL, VBA, SPSS (ANOVA, t-test, correlation, regression), grounded theory, qualitative content analysis.
- **Qualitative & Quantitative Research:** Semi-structured qualitative interviews, semi-structured focus group discussions, Likert-scale survey design.
